Do you want to become a Finance Master?

Do you want to ensure you or your family remain financially protected?

Do you want to learn key knowledge from someone who actually works within the world of Financial Services?

If the answer is 'Yes!' then you have found exactly what you need.

As well as providing access to a **completely free, downloadable budget planner** (which can be personalised for you, and will also reveal the exact financial protection you or your family *need*), you will learn key financial knowledge within these pages that will benefit you for the rest of your life.

I am a man who, probably like yourself, did not receive from school the financial knowledge you needed to be able to run a home, not to mention a family. You have probably had to learn on your feet, and learn fast.

In this book, I will keep it simple. It is designed for those who have never actually sat down and taken the time to master the basics of running, planning and protecting your own finances, or the finances of your family. If you feel like you need to take the time to master some new financial knowledge that I have only learnt through experience (I was taught none of this in school), then 'Finance Master' **is** the knowledge, and this **is** the time

I have been working in the Financial World for nearly 10 years and it is through my experience that I have

had the opportunity to truly understand key financial knowledge and financial planning skills that I would never have encountered if I worked in another industry.

After reading 'Finance Master' you will be able to...

- Increase your 'spare money' each month, without needing a pay rise.
- Plan your own development to maximise your employment income.
- Be ready for the 'Life Stages' that can make, or break, families and relationships.
- Break down psychological barriers and increase your potential as a human being.
- **Identify exactly how much of a financial safety net you or your family will need in different situations.**
- Understand why you could be broke in your 'retirement' years, **and how to avoid this.**
- Understand lots of other things about money that you may never have even thought of before!
