Structural Timber Design to Eurocode 5 Jack Porteous, Abdy Kermani

Structural Timber Design to Eurocode 5 is a comprehensive book which provides practising engineers and specialist contractors with detailed information and in-depth guidance on the design of timber structures based on the common rules and rules for buildings in Eurocode 5 - Part 1-1. It will also be of interest to undergraduate and postgraduate students of civil and structural engineering. The book provides a step-by-step approach to the design of all of the most commonly used timber elements and connections using solid timber, glued laminated timber or wood based structural products. It features numerous detailed worked examples, and incorporates the requirements of the UK National Annex. It covers the strength and stiffness properties of timber and its reconstituted and engineered products; the key requirements of Eurocode 0, Eurocode 1 and Eurocode 5 - Part 1-1; the design of beams and columns of solid timber, glued laminated, composite and thin-webbed sections; the lateral stability requirements of timber structures; and the design of mechanical connections subjected to lateral and/or axial forces as well as rigid and semi-rigid connections subjected to a moment. The Authors Jack Porteous is a consulting engineer specialising in timber engineering. He is a Chartered Engineer, Fellow of the Institution of Civil Engineers and Member of the Institution of Structural Engineers. He is a visiting scholar and lecturer in timber engineering at Napier University. Abdy Kermani is the Professor of Timber Engineering and R&D consultant at Napier University. He is a Chartered Engineer, Member of the Institution of Structural Engineers and Fellow of the Institute of Wood Science with over 20 years' experience in civil and structural engineering research, teaching and practice. The authors have led several research and development programmes on the structural use of timber and its reconstituted products. Their research work in timber engineering is internationally recognised and published widely. Also of Interest Timber Designers' Manual Third Edition E.C. Ozelton & J.A. Baird Paperback 978 14051 4671 5 Cover design by Garth Stewart

From reader reviews:

Eula Hunter:

The feeling that you get from Structural Timber Design to Eurocode 5 could be the more deep you rooting the information that hide within the words the more you get enthusiastic about reading it. It doesn't mean that this book is hard to comprehend but Structural Timber Design to Eurocode 5 giving you enjoyment feeling of reading. The writer conveys their point in certain way that can be understood through anyone who read the item because the author of this publication is well-known enough. This specific book also makes your own vocabulary increase well. So it is easy to understand then can go together with you, both in printed or e-book style are available. We propose you for having this specific Structural Timber Design to Eurocode 5 instantly.

Jamey Ainsworth:

This Structural Timber Design to Eurocode 5 usually are reliable for you who want to be a successful person, why. The explanation of this Structural Timber Design to Eurocode 5 can be on the list of great books you must have is actually giving you more than just simple reading food but feed a person with information that perhaps will shock your preceding knowledge. This book is usually handy, you can bring it all over the place and whenever your conditions throughout the e-book and printed ones. Beside that this Structural Timber Design to Eurocode 5 forcing you to have an enormous of experience such as rich vocabulary, giving you trial of critical thinking that we realize it useful in your day task. So , let's have it and enjoy reading.

Zoe Harris:

Your reading 6th sense will not betray an individual, why because this Structural Timber Design to Eurocode 5 reserve written by well-known writer who knows well how to make book that may be understand by anyone who read the book. Written within good manner for you, leaking every ideas and publishing skill only for eliminate your personal hunger then you still hesitation Structural Timber Design to Eurocode 5 as good book but not only by the cover but also with the content. This is one book that can break don't determine book by its include, so do you still needing one more sixth sense to pick this kind of!? Oh come on your examining sixth sense already alerted you so why you have to listening to an additional sixth sense.

Tom Carter:

In this period of time globalization it is important to someone to find information. The information will make professionals understand the condition of the world. The healthiness of the world makes the information quicker to share. You can find a lot of personal references to get information example: internet, newspapers, book, and soon. You will observe that now, a lot of publisher in which print many kinds of book. The particular book that recommended to you is Structural Timber Design to Eurocode 5 this reserve consist a lot of the information with the condition of this world now. That book was represented so why is the world has grown up. The vocabulary styles that writer use for explain it is easy to understand. The writer made some

study when he makes this book. This is why this book ideal all of you.
