**Tenkara - Ancient and Modern. (One man and his rod) (Volume 3)** Mr John RS Allen

In this book John details the history, techniques and “make-it-yourself” sections for making Tenkara rods, nets, furred lines and flies. Tenkara fishing can be seen as a streamlined counterpart to western fly-fishing. The equipment used is to direct focus to the actual fishing and catching of the fish. A rod, Tenkara line and fly are necessary for Tenkara fishing (no reel is used). The appeal of Tenkara is its elegant simplicity. There are also other advantages of using the long Tenkara rods when fishing in mountain streams, primarily the lightness of the line and delicate presentation. A long rod allows for precise placement of the fly on small pools and allows for holding the fly in place on the other side of a current. The other main advantage of using the long Tenkara rod is precise control for manipulation of the fly. This is one mans story, from first learning the art of Tenkara in Japan to using the technique fishing around the world. Based on the authors own experiences from learning Tenkara fishing in Japan, to teaching Tenkara in the UK.
