Digital Arts: An Introduction to New Media (Berg New Media Series) Cat Hope, John Charles Ryan
Digital Arts presents an introduction to new media art through key debates and theories. The volume begins with the historical contexts of the digital arts, discusses contemporary forms, and concludes with current and future trends in distribution and archival processes. Considering the imperative of artists to adopt new technologies, the chapters of the book progressively present a study of the impact of the digital on art, as well as the exhibition, distribution and archiving of artworks.

Alongside case studies that illustrate contemporary research in the fields of digital arts, reflections and questions provide opportunities for readers to explore relevant terms, theories and examples. Consistent with the other volumes in the New Media series, a bullet-point summary and a further reading section enhance the introductory focus of each chapter.
