It is based on research that identifies the five different groups of skills that leaders must have -- career skills, people skills, moment of truth skills, technical skills and values and behaviors.

It covers some of the common challenges emerging leaders have expressed, such as: how to really take control; how to deal with politics of the organization; how to manage budgets when times are tough; how to achieve what's necessary with limited time and money and how to deal with stress.

This new edition is updated with a new section on the mindset of success, as well as the latest thinking on resilience, collaboration and enterprising. Full of tips, exercises and advice, *The Leadership Skills Handbook* explains how to become a leader that people want to follow.
