Evaluating Drug Literature: A Statistical Approach

Richard L. Slaughter, David Edwards

Evaluating Drug Literature: A Statistical Approach Richard L. Slaughter, David Edwards

Important new textbook gives students of pharmacy a one-stop resource to develop the necessary skills to find, read, understand, and evaluate drug literature. Epidemiological and mathematical concepts are explained clearly and concisely with real examples, not hypothetical case studies. Key concepts correlation and regression analysis, survival curve analysis, medical informatics, research process and experimental design are presented clearly and made relevant to the pharmacy arena.
