From manga and anime to movies, magazines, video games, advertising and music, Japanese schoolgirls are everywhere. For years, schoolgirls have shown up in internationally popular anime such as *Sailor Moon*, *The Melancholy of Haruhi Suzumiya*, and *Blood: The Last Vampire*. Films such as *Battle Royale* inspired Quentin Tarantino to include a fighting schoolgirl in *Kill Bill*; and recently, Rinko Kikuchi received an Oscar nomination for her role as a schoolgirl in the film *Babel*. There are schoolgirl characters in video games such as *Street Fighter*. And the "Japanese Schoolgirl Watch" column in *Wired* magazine has long kept an eye on the trends emerging among these stylish teens. In effect, the Japanese schoolgirl has all but replaced the "geisha-girl" as Japan's new female icon.

Brian Ashcraft, the author of *Arcade Mania!*, and his sidekick, Shoko Ueda, take the reader beneath the surface to discover the secrets of this iconic figure. By talking to Japanese women, including former and current J-pop idols, well-known actresses, models, writers, and artists -- along with film directors, historians and marketers -- the authors reveal the true story behind Japan's obsession with schoolgirls and answer such burning questions as:

- Where did the sailor-style uniform come from?
- How did the Japanese schoolgirl develop into a *brand* that can be used to sell anything from *kimchi* to insurance?
- Why have Japanese schoolgirls become such a symbol of girl power?
- And, most importantly, why are they so very, very cool?
