## **Fatal Choice: Nuclear Weapons: Survival or Sentence** Richard Butler

We continue to face a choice with respect to nuclear weapons – either to move safely toward their elimination or to remain their victim. A forty-year effort to prevent the spread of nuclear weapons is breaking down, and the likely acquisition of these weapons by terrorist groups is growing. In *Fatal Choice*, Richard Butler, a well-known and respected voice on the subject of nuclear weapons, argues that we are poised on the verge of a second and much more threatening nuclear arms race than the one experienced throughout the Cold War. This threat is clearly reflected in nuclear weapons development by India, Pakistan, Iraq, and North Korea. The revival by the Bush administration of missile defense will not deal with the problem but worsen it. Butler outlines the steps that can be taken to give effect to the right choice on nuclear weapons.
