The Retire to Mexico series is a funny yet factual discovery of why Mexicans and Americans/Canadians are passing each other at the border in search of the American Dream and the good life.

Crazy taxes and laws prohibiting everything have totally changed what it means to be an American/Canadian. The changing economic landscape and the internet have had an irreversible effect on the way people perceive their lifestyle options. Over the past 5 years there has been an emerging trend to relocate to a country where the system is just better, regardless of your age or nationality.

More than 1.3 million American and Canadians have come to the dual realization that their economic future is nonexistent, however; the power to do something about it is very much a reality.

This e book classic is packed with formulas, strategies, slice of life stories and testimonials. The book is an impressive companion for anyone looking south of the border.
