The Changing Face of Evil in Film and Television (At the Interface / Probing the Boundaries)

The popular media of film and television surround us daily with images of evil - images that have often gone critically unexamined. In the belief that people in ever-increasing numbers are turning to the media for their understanding of evil, this lively and provocative collection of essays addresses the changing representation of evil in a broad spectrum of films and television programmes. Written in refreshingly accessible and de-jargonised prose, the essays bring to bear a variety of philosophical and critical perspectives on works ranging from the cinema of famed director Alfred Hitchcock and the preternatural horror films *Halloween* and *Friday the 13th* to the understated documentary *Human Remains* and the television coverage of the immediate post-9/11 period. *The Changing Face of Evil in Film and Television* is for anyone interested in the moving-image representation of that pervasive yet highly misunderstood thing we call evil.
