MySearchLab provides students with a complete understanding of the research process so they can complete research projects confidently and efficiently. Students and instructors with an internet connection can visit www.MySearchLab.com and receive immediate access to thousands of full articles from the EBSCO ContentSelect database. In addition, MySearchLab offers extensive content on the research process itself—including tips on how to navigate and maximize time in the campus library, a step-by-step guide on writing a research paper, and instructions on how to finish an academic assignment with endnotes and bibliography.

No other book combines ecology, law, politics, and environmental science in a way designed to inform the reader as to how it all fits together. This book, clearly and engagingly written, makes the complex and often confusing concepts of environmental policy making easy to understand. This book provides a basic understanding of environmental topics and our current policy-making process, discussing the ecosystem, public awareness, governmental regulations, as well as air and water pollution, energy, toxic wastes, land management issues, and international environmental issues. For those employed in the environmental, land management, urban planning, public policy, and hazardous materials fields.
