This newly revised and updated Second Edition surgical atlas is an integral complement to the textbook, **Head and Neck Surgery--Otolaryngology, Third Edition**. Comprehensive coverage provides surgical techniques and the latest procedures in a well organized, concise format. Step-by-step descriptions are presented and include accompanying two-color illustrations, outlines, tips, complications, postoperative care issues, references, and surgical variations. Many renowned surgeons author the chapters, making this noteworthy guide a necessary component in the otolaryngologic community.
