Beyond the Line: Military and Veteran Health Research Alice B. Aiken, Stéphanie A.H. Bélanger

Caring for veterans returning from service is just as important as preparing troops for deployment. *Beyond the Line* is a collection of current research presented by the Canadian Institute for Military and Veteran Health Research, an organization committed to finding the best solutions to address the range of health issues arising from military service. Bringing together work by defence scientists and researchers and clinicians from several Canadian universities, contributors present their findings on topics such as mental, physical, social, rehabilitative, and occupational health, in addition to combat care. Diverse topics, ranging from technology to programs for children, add depth and dimension. Providing expert insight into healthcare for armed forces, veterans, and their families, *Beyond the Line* engages the research community towards the common goal of improved healthcare services for Canada's military population.
