By Greg Ward Larson Rendering With Radiance: The Art And Science Of Lighting Visualization (Revised) [Hardcover]

With this book, the authors provide a comprehensive tutorial and reference for the Radiance Lighting Simulation and Rendering System. Radiance is a unique suite of lighting-visualization programs that is capable of true photo-quality light simulation for existing, imagined, or reconstructed scenes. The potential benefits of this facility to computer graphics practitioners, illumination engineers, and designers are enormous, and this unique book makes these benefits accessible. Interest in the software has recently surged due to the release of the software under an OpenSource license by the University of California Lawrence Berkeley National Laboratory.
