"I myself own a few businesses so I am always interested in reading point of views and suggestions from other entrepreneurs. Vasile the author makes this hot to guide very easy to read and follow. His points are clear and concise, which makes reading this enjoyable. I have applied a lot of these tactics already prior to reading however I did find very interesting suggestions that I will definitely have to try. I once read, "Take up one idea. Make that one idea your life - think of it, dream of it, live on that idea. Let the brain, muscles, nerves, every part of your body, be full of that idea, and just leave every other idea alone. This is the way to success." That is very powerful statement and the truth. Overall I thoroughly enjoyed reading this book and will definitely look for more publications from this author." - Clay

"I got some information out of it that I had not thought of before and may save me some time and effort in the future! Never stop learning! If you stop learning, you stop excelling! For the price, what can it hurt to help yourself succeed!" - Sara

I divided my book into the following sections: Entrepreneurship between myth and reality, Business definition (a participatory questionnaire), Financing the business (very strong and wise discussion about capital, loans, venture capital, etc), Business plan and the detailed contents of that plan, Calculation of necessary budget based on costs, The balance sheet, profit and loss account, cash flow, and a series of highly detailed Annexes from template to Netexpert.

"Author Axinte Ciprian knows the entrepreneurial role top to bottom. One of his major positive marks is his ability to deal with change - for that is what the world of business is doing right now, trying to incorporate the Internet into making money for those who enter this relatively new realm. He has a long track record of making best use of any available resources and techniques. He creates, shares, and delivers and that is precisely what this book does also!" - Grady Harp
