Technology and the Air Force: A Retrospective Assessment

Office of Air Force History, U.S. Air Force

Technology and the Air Force: A Retrospective Assessment Office of Air Force History, U.S. Air Force
The history of the United States Air Force is inextricably bound up in the history of aerospace technology. Major revolutions have influenced the evolution of Air Force capabilities and systems, most notably those of atomic weaponry, the turbojet revolution, supersonic flight, avionics, aerial refueling, spaceflight, precision weaponry, electronic flying controls, composite materials, and stealth. It is worthwhile to take a retrospective look at some of the aerospace challenges and opportunities the Air Force faced and how it took advantage - or failed to take advantage - of them. With this in mind, the Air Force History and Museums Program organized a symposium on October 23 and 24, 1995, in which leading historians, technologists, and military decision makers met at Andrews Air Force Base, Maryland, to present case studies on a series of technological challenges, opportunities, and problems. This symposium, co-sponsored by the Air Force Historical Foundation, covered relevant technological histories ranging from the turbojet revolution of the 1930s to the stealth revolution of the 1990s. This volume presents the texts of the papers in the order they were given. Many people within the Air Force History and Museums Program helped put this program together. I especially wish to acknowledge the contributions of Jacob Neufeld of the Air Force History Support Office for his efforts in bringing both the symposium and this publication to fruition.

From reader reviews:

Margarito Rone:

Precisely why? Because this Technology and the Air Force: A Retrospective Assessment is an unordinary book that the inside of the book waiting for you to snap the item but latter it will shock you with the secret it inside. Reading this book beside it was fantastic author who else write the book in such wonderful way makes the content inside of easier to understand, entertaining way but still convey the meaning totally. So , it is good for you because of not hesitating having this any more or you going to regret it. This book will give you a lot of benefits than the other book get such as help improving your skill and your critical thinking approach. So , still want to hold up having that book? If I ended up you I will go to the book store hurriedly.

Cecilia Moore:

Reading a book to become new life style in this season; every people loves to examine a book. When you read a book you can get a great deal of benefit. When you read guides, you can improve your knowledge, since book has a lot of information upon it. The information that you will get depend on what forms of book that you have read. If you would like get information about your analysis, you can read education books, but if you want to entertain yourself you are able to a fiction books, such us novel, comics, and also soon. The Technology and the Air Force: A Retrospective Assessment offer you a new experience in looking at a book.

Tony Jacobson:

As we know that book is significant thing to add our knowledge for everything. By a e-book we can know everything we really wish for. A book is a pair of written, printed, illustrated or blank sheet. Every year seemed to be exactly added. This e-book Technology and the Air Force: A Retrospective Assessment was filled about science. Spend your spare time to add your knowledge about your research competence. Some people has diverse feel when they reading a new book. If you know how big benefit from a book, you can truly feel enjoy to read a e-book. In the modern era like today, many ways to get book which you wanted.

Charles Moreno:

Do you like reading a reserve? Confuse to looking for your favorite book? Or your book seemed to be rare? Why so many question for the book? But just about any people feel that they enjoy regarding reading. Some people likes studying, not only science book but in addition novel and Technology and the Air Force: A Retrospective Assessment or even others sources were given understanding for you. After you know how the truly great a book, you feel would like to read more and more. Science publication was created for teacher or maybe students especially. Those guides are helping them to include their knowledge. In some other case, beside science publication, any other book likes Technology and the Air Force: A Retrospective Assessment to make your spare time considerably more colorful. Many types of book like this.
