Helping students make connections between science and practice

The World of Children helps students connect the science and the practice of child development in a way that can positively change lives. The third edition features an active learning system that exposes students to real people facing real world child development challenges. It encourages readers to think critically about issues from multiple perspectives. *The World of Children* is a chronological child development text.

MyPsychLab is available with *World of Children, 3e*. Through MyPsychLab, students have access to MyVirtualChild, an interactive web-based simulation that allows students to raise a child from birth to age 18 and monitor the effects of their parenting decisions over time.

The teaching and learning experience with this program helps to:

- ***Understand Different Perspectives*** – Several perspectives are included in the reading to help students think about the content from different points of view.
- ***Support Instructors*** — New MyPsychLab Video Series. These cross-cultural videos feature original footage filmed in the United States, Mexico, and Botswana. Guided by series editor Ashley Maynard (University of Hawaii, Manoa), they show how culture impacts child development. Videos are available in multiple formats: on an instructor’s DVD, tied to quizzes in MyPsychLab, and called out in the chapter with “Watch” icons.
