Mastering Gephi Network Visualization

Ken Cherven

Mastering Gephi Network Visualization Ken Cherven

Produce advanced network graphs in Gephi and gain valuable insights into your network datasets

About This Book

- Build sophisticated interactive network graphs using advanced Gephi layout features
- Master Gephi statistical and filtering techniques to easily navigate through even the densest network graphs
- An easy-to-follow guide introducing you to Gephi's advanced features, with step-by-step instructions and lots of examples

Who This Book Is For

This book is intended for anyone interested in advanced network analysis. If you wish to master the skills of analyzing and presenting network graphs effectively, then this is the book for you. No coding experience is required to use this book, although some familiarity with the Gephi user interface will be helpful.

What You Will Learn

- Familiarize yourself with the Gephi interface
- Understand the plugins that are most critical for network analysis and graph creation
- Assess your own network graph needs
- Examine key network behaviors such as contagion, diffusion, and clustering
- Effectively display a sample dataset using your own graphs
- Identify and analyze network patterns
- Use Gephi's powerful filtering capabilities to improve your graphs
- Create dynamic graphs with time-based network data
- Export your graphs for use beyond Gephi

In Detail

Mastering Gephi Network Visualization will take you through an overview of Gephi and network behavior, followed by detailed chapters addressing layouts, filtering, graph statistics, dynamic graphs, and more. You will begin with a concise overview of working with the Gephi interface. You will then see how to create your own graphs and understand the graph layouts to arrange a sample dataset. You will understand the theory behind Dynamic Network Analysis, followed by sample applications on how Gephi can be used to model these networks. You will also learn about the plugins that are most critical for network analysis and graph creation. Finally, you will put together all the previously learned concepts and gain insight on the future state of network graph analysis.

After reading this book and following the examples provided, you will have the confidence and expertise to create your own compelling graphs.

From reader reviews:

Vincent Erickson:

The book Mastering Gephi Network Visualization gives you the sense of being enjoy for your spare time. You can use to make your capable much more increase. Book can for being your best friend when you getting strain or having big problem along with your subject. If you can make reading a book Mastering Gephi Network Visualization to become your habit, you can get much more advantages, like add your own capable, increase your knowledge about a number of or all subjects. It is possible to know everything if you like open and read a publication Mastering Gephi Network Visualization. Kinds of book are several. It means that, science book or encyclopedia or other folks. So , how do you think about this guide?

Virginia Cherry:

Do you really one of the book lovers? If so, do you ever feeling doubt when you are in the book store? Aim to pick one book that you just dont know the inside because don't assess book by its include may doesn't work the following is difficult job because you are afraid that the inside maybe not as fantastic as in the outside appear likes. Maybe you answer may be Mastering Gephi Network Visualization why because the wonderful cover that make you consider with regards to the content will not disappoint anyone. The inside or content is definitely fantastic as the outside or cover. Your reading sixth sense will directly direct you to pick up this book.

Simona Vela:

As a scholar exactly feel bored for you to reading. If their teacher expected them to go to the library or even make summary for some publication, they are complained. Just little students that has reading's spirit or real their hobby. They just do what the professor want, like asked to the library. They go to right now there but nothing reading seriously. Any students feel that reading is not important, boring and also can't see colorful photographs on there. Yeah, it is to get complicated. Book is very important for you. As we know that on this era, many ways to get whatever we really wish for. Likewise word says, many ways to reach Chinese's country. Therefore this Mastering Gephi Network Visualization can make you really feel more interested to read.

Louis Hudson:

Reading a publication make you to get more knowledge from this. You can take knowledge and information from your book. Book is published or printed or illustrated from each source which filled update of news. Within this modern era like now, many ways to get information are available for anyone. From media social similar to newspaper, magazines, science e-book, encyclopedia, reference book, story and comic. You can add your knowledge by that book. Are you ready to spend your spare time to spread out your book? Or just in search of the Mastering Gephi Network Visualization when you essential it?
